

Defining the Goals

First piece of writing

These are questions you might use to help you think about. You don't have to answer each question as a checklist but they are to give you an idea of the type of information to include.

- What area of interaction was the context for your project? Why did you generally choose that area of interaction? What specific features of the area of interaction did you intend to focus upon in your project and why?
- What personal interest topic did you select? Why did this topic interest you? How much prior experience or understanding of this topic did you have? How does this interest or topic directly relate to your chosen area of interaction?
- What inquiry question did you design from the area of interaction and topic? What process did you use to decide on your inquiry question? Why is your question one that requires more than a simple answer? How can someone recognise the area of interaction in the question? How do they recognise the topic in the question?
- What goal did you set for your project? What specifications did you put in place to help you successfully complete your investigation and your project overall?
